ELEC390 Lab Exercise Week 1 Part 2
Team Skills Inventory

Mode: Complete individually and then discuss as a group. This inventory will come in handy when discussing group formation and when submitting one-pagers to project sponsors.

Task: A team's capabilities and potential is defined in part by the sum of the individual team members' experiences and skills. Take a few moments and fill in the areas below with relevant experience and skills.

Design Experience (commercial or academic – may include courses that you have taken)**:**

```

```

Project Experience (commercial or academic – your role as well, if it was a team project)**:**

```

```

Key Skills (technical and soft skills)**: List at least one of each**

```
Technical:

Soft:

```

Optional: submit online to verify that you can submit files; however this task will not be marked.
