**Ronel Jordaan Textiles**

Ronel Jordaan Textiles produces utterly unique felted cushions, hangings, throws and carpets, all carded, dyed and felted by hand from 100% Merino wool sourced from the Eastern Cape province. Founder Ronel Jordaan's nature inspiration can be seen in her awe-inspiring rock pillows, pebble carpets and leaf hangings.

Named the **2006 Soft Furnishing Designer** by ELLE Magazine, Ronel's proudest achievement is empowering the group of women she trained in felting to create their own designs.

# Safety

Safety is our number one priority. It is the promise the aviation industry makes to the 1.8 billion people who currently fly each year. This number is forecast to double during the next 15-20 years. We are committed to continuously improving safety. IATA has launched an integrated global safety programme that comprises six critical segments.

[www.iata.org/whatwedo](http://www.iata.org/whatwedo)

## AIRLINE SAFETY AUDITS

The IATA Operational Safety Audit (IOSA) provides a standardised audit programme of airline operational management and control systems, based on internationally recognised standards and supported by a rigorous quality assurance process. This improves worldwide operations and reduces the number of operational audits that are conducted. All airlines (IATA and non-IATA) are welcome to seek an IOSA audit.

All IATA member airlines have committed to seek registration as an IOSA Operator by January 1, 2006. Recently endorsed by the US Federal Aviation Administration (FAA), IOSA is raising safety standards for airlines.

[www.iata.org/ps/services/iosa.htm](http://www.iata.org/ps/services/iosa.htm)

## TRAINING

IATA provides a comprehensive range of training courses to assist industry staff to develop, implement and manage safety programmes as required by airlines and States. IATA also has established a new diploma for aviation safety management and continues to be a leader in providing training in handling dangerous goods.

[www.iata.org/ps/training/index](http://www.iata.org/ps/training/index)

## INFRASTRUCTURE SAFETY

IATA develops standards and procedures for safe airside and flight operations in close cooperation with the International Civil Aviation Organization (ICAO), regulators, airports and air navigation service providers (ANSPs). IATA's efforts target the reduction of runway incursions, communication misunderstandings and clearance errors.

[www.iata.org/whatwedo/infrastructure](http://www.iata.org/whatwedo/infrastructure)

## DATA MANAGEMENT AND ANALYSIS

The Safety Trends Evaluation, Analysis and Data Exchange System (STEADES) is the largest database of safety information available. It is created from flight reports collected from participating airlines. With a better understanding of incident data, we can reduce the risk of accidents and the cost of safety.

[www.iata.org/ps/services/steades.htm](http://www.iata.org/ps/services/steades.htm)

## CARGO AND DANGEROUS GOODS SAFETY

The IATA 'Dangerous Goods Center of Expertise' strives to lead industry efforts to ensure the safe handling of these substances in air transport by providing a broad array of technical knowledge, products, services and training solutions tailored to meet industry needs.

[www.iata.org/whatwedo/dangerous\\_goods](http://www.iata.org/whatwedo/dangerous_goods)

## CABIN SAFETY

Cabin operations are an integral part of the IATA Operational Safety Audit. Cabin safety incidents are also included in the STEADES database.

[www.iata.org/whatwedo/cabin\\_safety](http://www.iata.org/whatwedo/cabin_safety)

## Product Profile - IATA Safety Report

The IATA Safety Report, analyses the accidents of the previous calendar year. It identifies areas of concern and offers prevention strategies and recommendations to the industry.

[www.iata.org/ps/publications/9949.htm](http://www.iata.org/ps/publications/9949.htm)

# Index

## What we do for you

05. Foreword	18. Regulatory and Public Policy
07. Safety	21. Cabin Operations and Safety
09. Security	23. Safety Services
11. Facilities	25. Safety for Operators
13. Operations	27. Products and commercial aspects
15. Infrastructure	29. Liability
17. Environment	

This publication summarises the key areas of IATA's involvement in the air transport industry.

# Foreword

IATA, the world's air transport industry association, is pleased to present this report to you. It is a key document for the industry, providing a comprehensive overview of the current state of the global aviation industry. The report is a result of the IATA Safety Report, which is a key document for the industry, providing a comprehensive overview of the current state of the global aviation industry. The report is a result of the IATA Safety Report, which is a key document for the industry, providing a comprehensive overview of the current state of the global aviation industry.

*Jim Bell*

Chairman, IATA

# Regulatory & Public Policy

IATA is the world's air transport industry association, representing the interests of airlines, airports, and air navigation service providers. IATA is committed to ensuring the safety, security, and efficiency of the global aviation industry. IATA is committed to ensuring the safety, security, and efficiency of the global aviation industry. IATA is committed to ensuring the safety, security, and efficiency of the global aviation industry.

# LOCATION, LOCATION, LOCATION!

For over 60 years, IATA has been the custodian of a unique global numbering system and contact base of travel locations. This information has been compiled on a CD-Rom called Global Source, and contains information on **more than 125,000 travel agencies worldwide**.

Airlines and industry suppliers can use Global Source to target agencies and create and customize their own promotional materials.

- ➔ **What in the world does Global Source include?**  
Global Source includes all the vital information an industry supplier would need to tightly target any given message:
- IATA numeric code
  - Agency legal and trading name
  - Location and mailing details
  - Agency status
  - Agency type and category
  - Telephone, fax number

## How can Global Source help me?

Global Source comes with a fast and extremely user-friendly interface. It's ideal for creating targeted lists for print, fax and e-mail. You can also:

- View your results on screen in a number of pre-formatted styles
- Create data for export to other applications
- Create customized mailing labels
- Sort and display agencies using a variety of criteria like geographic location, agency type, agency status, etc.

## Who can benefit from Global Source?

Global Source's speed and flexibility make it a valuable tool for virtually any travel or travel-related enterprise, among them:

- Airlines
- Hotels
- Car rental agencies
- Convention boards
- Tour and expedition packagers
- Tourism bureaus
- Cruise lines

**For global impact and global results, get Global Source**

For more information on Global Source content, structure, applications, rates or any other question, please visit our Website at [www.iata.org/globaldata](http://www.iata.org/globaldata)
