

# HOMEBASE STUDIOS

HOMEBASE STUDIOS is a creative design centre dedicated to collaboration in new facets for art exhibition, event management, creative and cultural consulting, curatorship, and artist promotion.

HOMEBASE STUDIOS values its time for the purpose to educate, inform, and inspire for the arts.

HOMEBASE STUDIOS is creating alliances that wish to push the limits of alternative events and representation.

HOMEBASE STUDIOS was established in 2006 in Whistler, BC, Canada but has recently relocated to Squamish; thirty minutes South.

The mind behind the business...

## STAN MATWYCHUK

Stan Matwychuk (MA-TWAH-CHUK) is a Canadian artist with international exposure. He has been orbiting Whistler, B.C. for 8 years and has gained prominence in Canada and abroad. Stan heads the artist run centre Homebase Studios as is backed by a infinitely talented group of artists.

Stan has shown in New York City, Toronto, Vancouver, Seattle, Britannia Beach, the Cayman Islands and has work hanging publicly and privately locally and abroad.

Stan has shown with fellow international contemporaries like Shepard Fairey, all the while paying homage to his environment, which inspires his art.

On a more local level Stan has collaborated with Chili Thom on projects such as the Terry Roberts Bridge Mural and with Mike Tyler on the new Whistler Public Library Donor Wall in Whistler.

Stan's art stems from the intention to show the collective unity of our experience. How regardless of skin colour/financial standing we are all the same global people.
