

## Individual Portraits

A studio backdrop is provided. Often a comfortable chair is best for individual photos.

A contact sheet of four of the best photos is provided to your resident. They may choose a free 5 X 7 which will be printed the day of the shooting. Additional portraits may be purchased to share with all of their family members.

## Family and Group Photos

When was the last time your residents had a group photo with all of their family members? It's probably years. For many it's been decades.

### Therapeutic Benefits of a photoshoot at your lodge.

Bringing together generations of families.

Providing a socially stimulating and safe environment for the residents.

Creating an environment where residents are facilitating the visit and able to socialize with grandchildren and great grandchildren in their own familiar and equalizing surroundings, thus enhancing their self esteem and their sense of empowerment.

Creating an atmosphere full of love, laughter and memories for years to come.

## The Magic of 'Green Screen'

With the magic of a 'green screen' we put you just about anywhere in the world. We bring the gardens to your residents!

## Professional Portrait Photoshoot

Portraits are an important part of remembering all those who are special to us. Far too often seniors do not have the opportunity to have their portraits taken.

Sentimental Photo will bring our professional photo studio to your lodge.

Residents receive a free 5 X 7 portrait the day of the photoshoot. Additional portrait or group photos may be ordered.

### Who we photograph

Individual residents.  
Residents and families.  
Grandchildren.  
Groups of 20 or more.

We've had as many as 5 generations in one family photo!

## Recreation Therapist: Bonnie Duffell

Bonnie Duffell was looking for an exciting event that would bring families together and offer a high level of positive therapeutic value with minimal advance organizing. Together she and photographer Dale Farrier discussed many possibilities. They decided that Dale would set-up a portrait studio with all the lights, cameras and backdrops, right in the lodge. A free 5 X 7 would be given to each resident that had their portrait taken.

**It was a huge success!**

For further information about how a photoshoot event will be beneficial to your residents, please feel free to contact Bonnie and Dale at the phone number on the front of the brochure.

## *Sentimental Photo & Slideshows*

You can have a professional photoshoot right in your lodge. Your residents and families will love the individual portraits and group photos.
