

# LIFEPLUS DISCOVERY<sup>®</sup>

An anti-aging supplement combining a traditional Chinese herb extract with cutting edge science.◊

Lifeplus Discovery is one of the most exciting new products we've ever created. Designed in recognition of the fact that aging is not just about what's on the outside, but the inside too, Lifeplus Discovery uses a concentrated, high quality extract of the Astragalus root. Used in China for thousands of years, in its most concentrated form, Astragalus contributes to the longevity of stem cells, prolonging and enhancing their ability to repair themselves, and manufacture new cells for the whole body – helping to combat the aging process at a cellular level.◊

Discover new possibilities at any age - with Lifeplus Discovery!
